

AwraqCapital
أوراق العالم

Structured with discipline. *Aligned by ownership.*

Saudi opportunities, matched with the world's capital.
Transaction leadership, deal structuring, financing advisory
and private wealth planning from Riyadh.

Great Saudi opportunities.

Global capital looking for them.

Awraq Capital is a Riyadh-based investment and structuring house. We lead transactions from first review to financial close, build the model and the legal structure that make a project bankable, source capital from Riyadh to Singapore, London, Kuwait and Doha, and invest alongside our clients.

14+

Years across audit, FP&A, sovereign and government finance, and private markets

\$2.5B+

Transactions completed across projects and companies

\$1B+

Debt managed across a range of projects

15%

Annual growth we look for in every investment

WHO WE SERVE

01

High-net-worth families

Net-worth plans, dashboards and liquidity strategy across every entity and asset.

02

Companies, sponsors & developers

Bankable structures and the right financing at the lowest cost, closed fast.

03

Landowners & government entities

We lead the transaction and turn land into a funded project at full value.

Yasser Alshahrani

FOUNDER • RIYADH

A LETTER FROM THE FOUNDER

01

Over fourteen years I have sat on every side of the table: auditing companies at EY, planning capital at ACWA Power, managing finance at the Public Investment Fund, and advising on public spending at the Royal Court and the Ministry of Energy. The same lesson repeated itself. Good assets lose value through poor structure, unclear risk, and partners who are not aligned.

I founded Awraq Capital to fix that. We review the project, qualify the sponsor, build the model and the legal structure, raise the capital, and then invest our own money beside our clients. When we win, it is because they won.

Our aim is simple: bring the world's capital to Saudi Arabia's best opportunities, in line with Vision 2030, on terms that are fair to every stakeholder.

Not brokers. Co-owners.

Yasser Alshahrani

Founder, Awraq Capital

yasser@awraqcapital.com

From Riyadh to the world's capital. *And back to Saudi opportunity.*

2030

Our aim is to align with Saudi Vision 2030 by attracting foreign direct investment, matching great Saudi opportunities with capital looking for great investments in the Kingdom. We are a gateway to Singapore and Asian capital markets, the Kuwaiti capital market, Qatari funds and London financing houses, and we align our interest with every stakeholder at the table.

Wealth is built by structure. *Trust keeps it.*

We manage our own family portfolio with the rules we apply to clients. Six principles decide whether we take a mandate, how we structure it, and when we invest.

I

Fair and shared economic interest

Every party is paid for what it contributes: land, capital, expertise or execution. When the split is fair, partners stay aligned through the hard years of a project.

II

Risk sits with whoever manages it best

Construction risk with the contractor, operating risk with the operator, title and permits with the owner, financing with the bank. Correctly placed risk costs less and returns more.

III

Ownership over commission

We co-invest in the structures we build. Our fee is the smaller part of our return.

IV

Protect the downside first

Security packages, escrow, share pledges and staged capital calls come before upside.

V

No conflict of interest

We do not sell a house product. We solve for the client's maximum liquidity at the lowest cost.

VI

Full disclosure, early

Every investor sees the model, the risks and the fees before committing.

Six ways we put capital to work *for our clients.*

01 Private wealth & net-worth planning
Net-worth plans, dashboards, models and portfolio tracking across every entity and asset, with a liquidity strategy that prevents cash-flow hiccups.

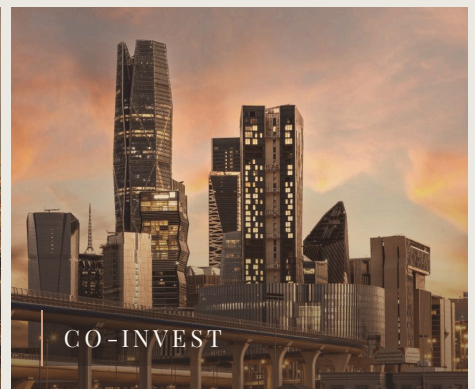

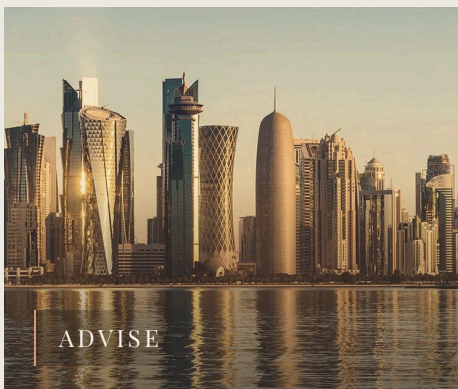

03 Sharia-compliant financing solutions
Innovative alternatives to bank debt that would otherwise limit growth and valuation.

05 Landowner & government transactions
We lead the transaction for the owner and secure the best valuation for the land.

02 Deal structuring & financing advisory
Making projects bankable, financing and restructuring companies, and closing the best market offer securely and fast.

04 Social & infrastructure finance
Competitive pricing for education and healthcare projects, with EPC plus financing on the best terms.

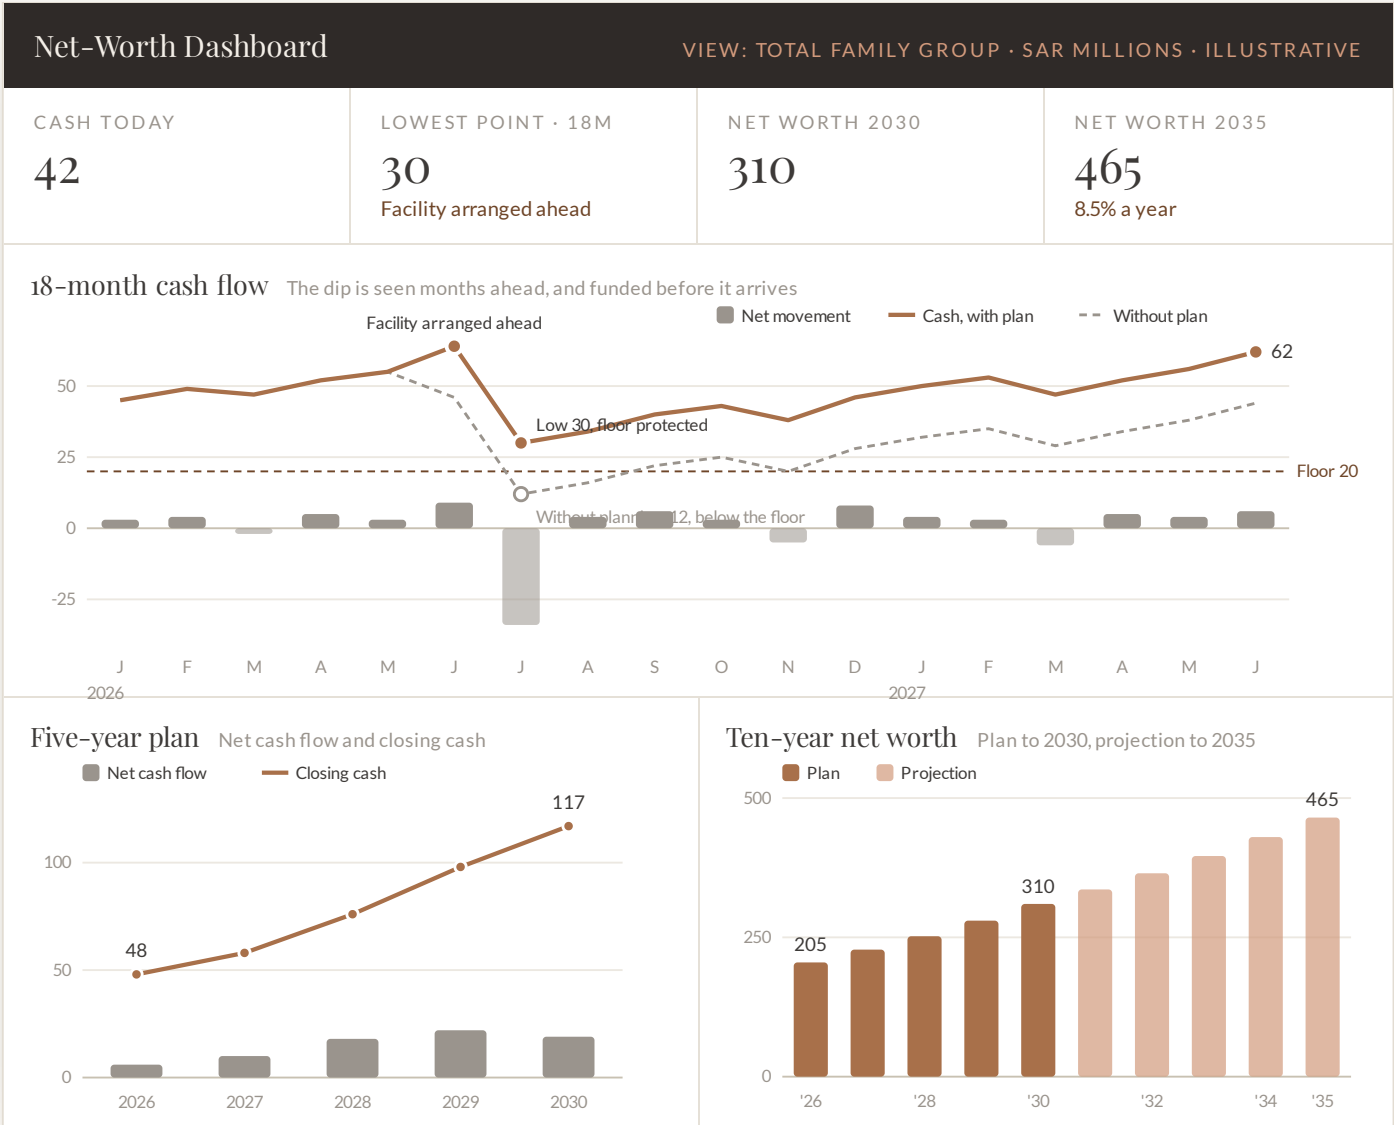

06 Co-investment in premium real estate
We lead from highest-and-best-use to exit, and invest beside our partners.

One view of everything you own.

One plan for what comes next.

We map every entity and asset, build the model behind it, and reduce it to three charts an executive can read in a minute: the next 18 months of cash, the five-year plan, and where net worth is heading over ten years.

CONSOLIDATED ACROSS Holding company · Operating companies · Real estate · Listed portfolio · Vehicles · Collections · Jewellery & valuables · Cash & facilities

Net-worth plan	Dashboard	Financial model	Tracking	Scenarios
Goals, horizon, risk budget	Every entity, one screen	Cash flow and valuation	Quarterly review vs plan	Liquidity and financing stress

Preserve, grow, compound.

Three layers, one discipline.

We build wealth in layers. Each layer has a job, a time horizon and a risk budget. Capital moves upward only when the layer below is secure.

Foundation	Preserve. Liquidity, income-producing real estate, sukuk and fixed income. Covers obligations and funds opportunities without forced selling.	Target 3% a year
Growth	Grow. Private equity and real estate co-investments structured by Awraq, with security packages and aligned sponsors.	Target 15% a year
Compounding	Compound. High-quality listed businesses across global markets, held for the long term and reviewed on a fixed rhythm.	Target 8% a year

Portfolio management

Written investment policy for each client: objectives, liquidity needs, risk limits and permitted assets.

Position sizing caps so no single deal or stock can impair the whole.

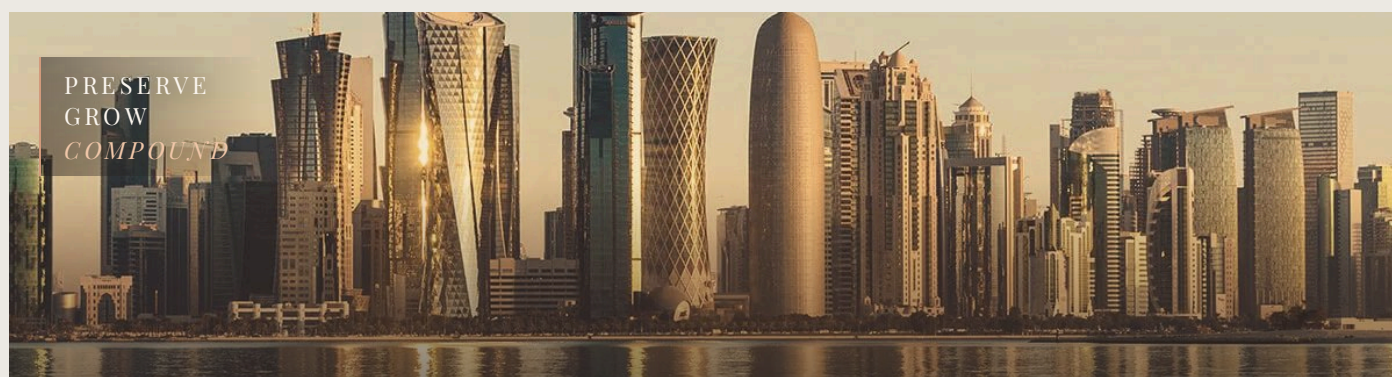

Quarterly review against targets; annual rebalancing back to the policy weights.

Reporting

One consolidated view of private and public holdings, cash and commitments.

Performance measured net of fees, against a stated benchmark.

Every private deal reported on its own model: actual vs. underwritten.

Targets are annual return objectives for each layer, not guarantees. Actual returns will vary.

When time is money, *we know where the money is.*

We make projects bankable and financeable, and support companies through financing and restructuring. Through our network and our knowledge of what the market offers, we reach the right capital firms quickly, match your needs to their products, collect competing offers and close securely and fast.

WHAT MAKES US DIFFERENT

	A BANK OR CAPITAL FIRM	AWRAQ CAPITAL
Objective	Sell its own product, even when it is not the right fit	Solve for maximum liquidity at the lowest cost
Choice	One house, one product range	Competing offers from banks, funds and private credit
Advice	Product-led	Independent, no conflict of interest
Speed	Their credit queue	Pre-matched to each lender's appetite

Diagnose

Needs, capacity,
constraints

Match

Lenders whose products fit

Compete

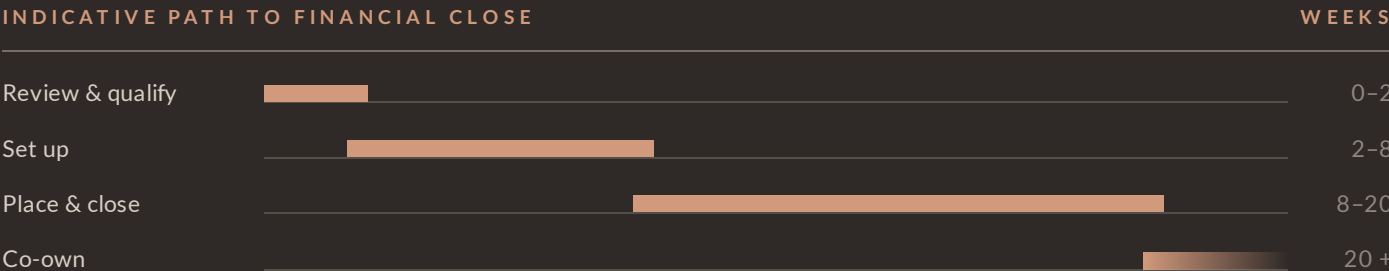

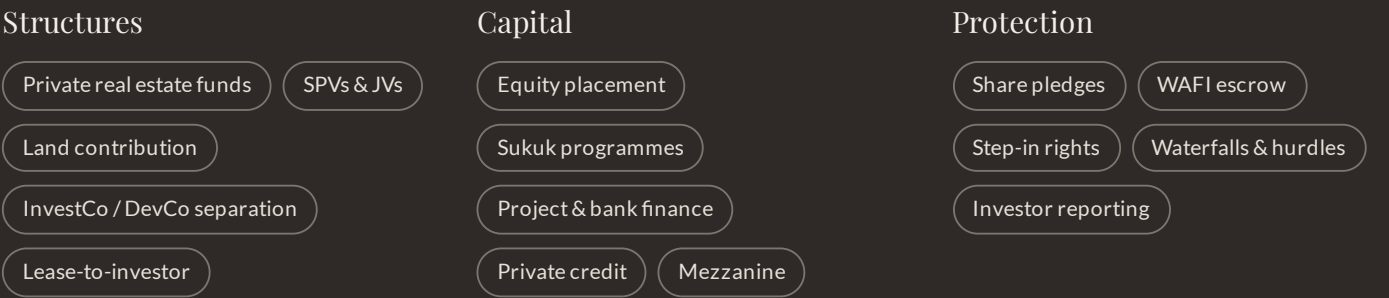

Offers side by side

Close

Secure terms, fast

One team from first review to the day the fund closes.

Most projects stall between a good idea and committed capital. Our model carries the project across that gap, with Awraq leading every workstream and every counterparty.

Financing that fuels growth, *not financing that limits it.*

Conventional bank debt can cap your growth with covenants and erode your valuation. We structure innovative, Sharia-compliant alternatives sized to your cash flows and your plans.

Sukuk programmes

Ijara, murabaha and wakala sukuk for income assets and corporates

Istisna'a

Construction-phase funding matched to milestones

Ijara & sale-and-leaseback

Unlock capital from assets you already own

Diminishing musharaka

Shared ownership that steps down as you buy out the financier

Receivables & revenue-based finance

Liquidity from contracted income, not collateral

Private credit funds

Flexible terms where banks will not lend

SOCIAL & INFRASTRUCTURE PROJECTS

For education and healthcare projects we offer competitive pricing, and structure each deal so that EPC and financing come together on the best terms.

EPC

Fixed price, fixed date, performance bonds

Financing

Sized to project cash flows and tenor

EPC + F

One package, one counterparty, lower all-in cost

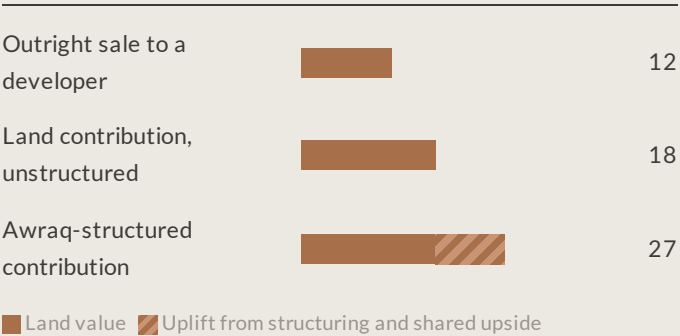

Your land holds more than its price.

We lead the transaction that proves it.

Government entities, endowments and private landlords often sell land at a buyer's valuation. Awraq Capital leads the whole transaction on the owner's side and contributes the land into the project, so the owner keeps the largest defensible share of the development value.

LAND VALUE: SALE VS. STRUCTURED CONTRIBUTION

Illustrative only, indexed to a gross development value of 100.

PATHS WE STRUCTURE

Master land development
Raw land to a phased neighbourhood with staged exits
Land into hospitality
Concept, feasibility, operator and funding to opening
Land into residential
Product mix, WAFI off-plan framework, buyer financing

RISK ALLOCATION: WHO CARRIES WHAT

RISK	ALLOCATED TO	INSTRUMENT
Title, zoning, permits	Landowner / authority	Land contribution agreement, conditions precedent
Design & construction	Contractor & PMC	Fixed-price EPC, performance bonds, retention
Sales & absorption	Developer	WAFI escrow, pre-sales thresholds before drawdown
Operations	Hotel or asset operator	Management agreement with performance tests
Funding	Banks & sukuk holders	Project finance, sukuk, staged capital calls
Structure & alignment	Awraq Capital	Co-investment, share pledge, investor reporting

We lead the whole transaction, *then we invest in it.*

In premium real estate projects, Awraq leads from the first study to the exit. We negotiate, set the legal term sheet, and set financial terms that serve every stakeholder.

01	02	03	04	05	06	07
Highest & best use	Design firm Appointment and brief	Developers Master and sub-developers	Financing Equity, debt, sukuk	Fund manager Licensed vehicle and governance	Operators Hotel and asset operators	Exit Planned from day one
What the land should become						

What our partners get

A sponsor who has its own capital in the deal, and one team accountable for every appointment.

Terms negotiated so that landowner, developer, operator, lenders and investors each earn for what they bring.

An exit route agreed before the first riyal is spent.

7

Workstreams led by one team

1

Term sheet that binds every party

Day 1

When the exit is planned

60%+

Typical Awraq co-investment

Every decision starts in the model.

Ours are built to be audited.

Our models are built to bank and auditor standard: one assumptions sheet, traceable formulas, scenario switches and a full sources-and-uses. Investors, lenders and boards can test them, not just read them.

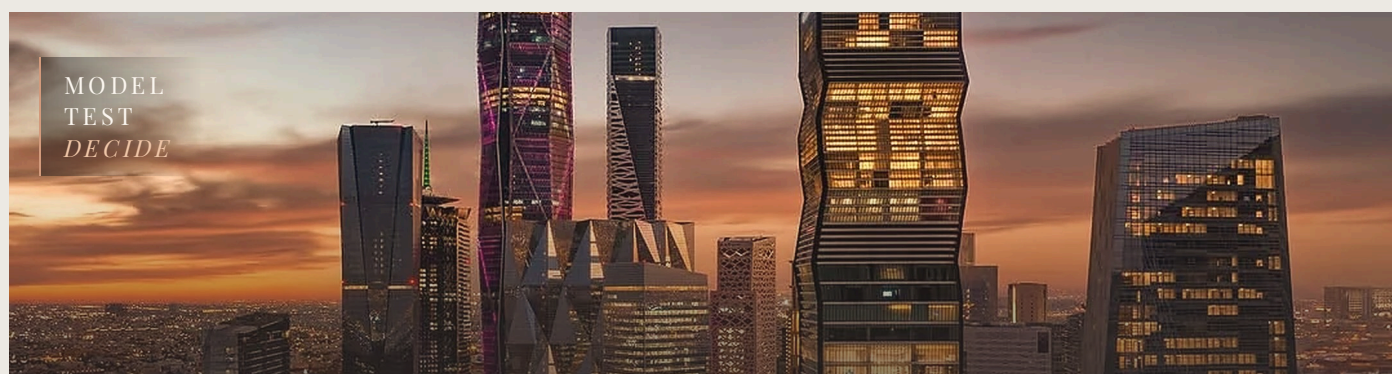

Development feasibility & residual land value	Real estate
Hotel keys, space programme & operator returns	Hospitality
Fund cash flows, waterfalls & carried interest	Funds
Sukuk sizing, pricing & coverage ratios	Debt capital
Family net worth & liquidity planning	Private wealth
Restructuring & separation scenarios	Special situations
Sensitivity, scenario & Monte Carlo testing	Risk

Returns summary	Base	Down	Up
Gross development value	100.0	88.0	110.0
Total development cost	(68.0)	(71.4)	(66.0)
Finance cost	(6.5)	(7.8)	(5.9)
Profit before land	25.5	8.8	38.1
Project IRR	17.2%	9.1%	22.6%
Equity IRR	21.8%	10.4%	29.3%
Equity multiple	1.9x	1.3x	2.3x
Min. DSCR	1.45x	1.18x	1.70x

Illustrative output layout, not a real project. Figures indexed to GDV = 100.

HOW EVERY MODEL IS BUILT

Inputs Market data, costs, timing, financing terms	Engine Monthly cash flow, debt, tax and zakat	Structure Waterfall, fees, hurdles, investor classes	Stress Scenarios, sensitivities, break-evens	Investor pack Dashboard, memorandum, lender case
--	---	--	--	--

We say no far more than yes.

Here is what earns a yes.

Private equity & real estate

Saudi Arabia and the GCC

- 01 **Sponsor quality.** Track record, governance and the sponsor's own equity in the deal.

- 02 **Asset fundamentals.** Location, demand drivers, and an asset base worth more than the debt on it.

- 03 **Security.** Share pledges, escrow, title protection and step-in rights.

- 04 **Return hurdle.** Target equity IRR above 15% in the base case; still positive in the downside.

- 05 **Exit visibility.** A named route: sale, refinancing, listing or sukuk.

- 06 **Regulatory fit.** CMA, WAFI and municipal approvals mapped before commitment.

Public equities

Tadawul, US, Europe and Asia

- 01 **Business quality.** Return on capital consistently above its cost.

- 02 **Balance sheet.** Low leverage and cash conversion that funds growth.

- 03 **Durability.** Pricing power and a moat that survives a downturn.

- 04 **Valuation.** Bought with a margin of safety to intrinsic value.

- 05 **Management.** Owner-minded leaders and sensible capital allocation.

- 06 **Discipline.** Sized by conviction, reviewed quarterly, sold when the thesis breaks.

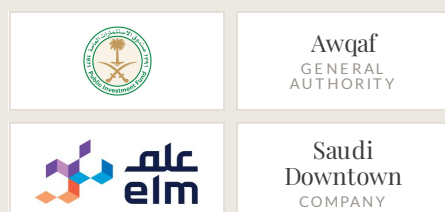

Screens are applied before any capital is committed. Past performance does not guarantee future results.

Capital moves through relationships.

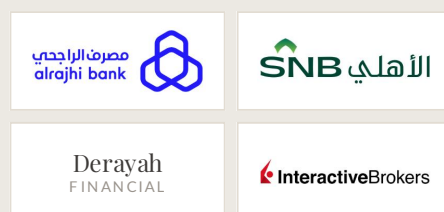

Ours took fourteen years to build.

From sovereign and government finance to investment banks, developers and hotel operators, we know who decides, what they need, and how to bring them to the same table.

BOARD & COMMITTEE ROLES

Madkhool FinTech, Board Member	Since 2021
Marasi Al Bahar Real Estate Development, Dammam, Board & Investment Committee	Since 2025
Koushan Real Estate Development, Investment & Audit Committees	Since 2023

EDUCATION

MBA, University of Texas at Arlington
BA International Business, Temple University

DISCIPLINES

Deal structuring, financial modelling, sukuk, fund formation, investor relations

MARKETS

Saudi Arabia and the GCC; Singapore, London; global public equities

"I invest in what I structure. That is the only promise of alignment I trust."

One lead advisor.

A bench of specialists behind every deal.

A real estate transaction needs an architect, a project manager, a contractor, a developer, a lawyer and a financier to agree. Awraq Capital brings in senior independent advisors and consultants for each mandate, so every discipline is at the table from the first study to financial close.

DESIGN & URBAN DEVELOPMENT

Dr. Zuhair H. Fayez

ARCHITECTURE & ENGINEERING

Founder of Zuhair Fayez Partnership (ZFP), one of the region's leading architectural and engineering firms. More than 50 years in design and giga-project management. Ph.D., University of Michigan.

Dr. Moataz Bakheet

MADINAH & HARAM DEVELOPMENT

Architect with a Ph.D. and more than 30 years in Madinah. Led the development and restructuring of the central area around the Prophet's Mosque; knows its rules, policies and stakeholders.

PROJECT & CONSTRUCTION DELIVERY

Bander A. Al Saady

MEGA-PROJECT MANAGEMENT

More than 20 years in the project management of mega projects with Saudi Aramco. Director at ZFP.

Dr. Mohammed Al Afranji

DESIGN MANAGEMENT TO TURNKEY

Ph.D. in project management of real estate projects, from design management through procurement and tendering to turnkey delivery.

Eng. Ahmed Yousef

CONSTRUCTION

Founder and CEO of Blackhorses Construction Company, with more than SAR 200M in construction revenue a year.

Ahmed Gamal

CONSTRUCTION

CEO of BEC Arabia, with SAR 2Bn of construction contracts in Saudi Arabia.
